Re: General Notice Letter for the Portland Harbor Superfund Site in Portland, Oregon 9.9.10

Dear Mr. Brandis:

Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), commonly known as the federal “Superfund” law, the U.S. Environmental Protection Agency (EPA) is responsible for responding to the release or threat of release of hazardous substances, pollutants, or contaminants into the environment – that is, for stopping further contamination from occurring and for cleaning up or otherwise addressing any contamination that has already occurred. EPA has documented that such a release has occurred at the Portland Harbor Superfund Site (the Site) located in Portland, Oregon. EPA has spent, or is considering spending, public funds to investigate and control releases of hazardous substances or potential releases of hazardous substances at the Site. Other parties have spent and are spending funds to conduct a remedial investigation and feasibility study. Based on information presently available to EPA, we have determined that Brand-S Corporation and Portland Lumber Mills may be responsible under CERCLA for cleanup of the Site or costs EPA and others have incurred in cleaning up the Site.

Explanation of Potential Liability

Under Sections 106(a) and 107(a) of CERCLA, 42 U.S.C. §§ 9606(a) and 9607(a), a Potentially Responsible Party (PRP) or parties may be required to perform response actions deemed necessary by EPA to protect the public health, welfare, or the environment, and may be responsible for the costs incurred by the government in responding to any release or threatened release at the Site. Such actions and costs may include, but are not limited to, a preliminary assessment and site investigation in order to gain an understanding of any risks posed by releases or threatened releases for the Site to human health and the environment, conducting a removal response action at the Site, expenditures for conducting a Remedial Investigation/Feasibility Study (RI/FS), conducting a Remedial Design/Remedial Action (RD/RA), and other investigation, planning, response, oversight, and enforcement activities. In addition, PRPs may be required to pay for damages to, destruction of, or loss of natural resources, including the costs of assessing such damages.

Printed on Recycled Paper

EPA has evaluated information in connection with the investigation of the Site performed to date and believes that Brand-S Corporation and Portland Lumber Mills may be a PRP with respect to this Site. PRPs under CERCLA include current owners or operators of the Site; former owners or operators of the Site at the time of disposal of any hazardous substances; persons who arranged for disposal, treatment or transport of hazardous substances at the Site; or persons who accepted hazardous substances for transport to the Site. Specifically, EPA has reason to believe that hazardous substances have been or are being released from the facility located at 8524 North Crawford Street in Portland, Oregon, into the "study area" for the Portland Harbor Superfund Site, which is River Mile 2 to River Mile 12.

To date, EPA and other parties have taken several response actions at the Site under the authority of the Superfund Program. Below is a brief description of some of the actions taken at the Site:

- A Preliminary Assessment (PA) and Site Investigation (SI) in order to gain a basic understanding of any risks posed to human health and/or the environment by releases or threatened releases from the Site.
- A Remedial Investigation (RI) to identify the Site characteristics and to define the nature and extent of soil, air, surface water, and groundwater contamination at the Site and the risks posed by the Site.
- A Feasibility Study (FS) to evaluate different cleanup options for the Site.

Information to Assist You

EPA would like to encourage communication between you, other PRPs, and EPA at the Site. To assist you in your efforts to communicate, we have enclosed a list of names and addresses of PRPs identified to date for the Site. Additionally, EPA has an internet website for the Portland Harbor Superfund Site at:

<http://yosemite.epa.gov/R10/CLEANUP.NSF/sites/ptldharbor>.

EPA is encouraging PRPs to convene a mediated allocation process. Through such a process PRPs work together to allocate the cleanup costs and work through intra-party issues to prepare for future negotiations with EPA for performance of the cleanup and reimbursement of response costs after EPA has issued its Record of Decision for the Portland Harbor Superfund Site. A comprehensive settlement for performance of all work and reimbursement of response costs will avoid litigation and significant transaction costs to you and your company. A group of PRPs have formed a convening group to start this effort. Below is a contact person for the Convening Group:

Stephen Parkinson
Groff Murphy, PLLC

Resources and Information for Small Businesses

As you may be aware, on January 11, 2002, President Bush signed into law the Superfund Small Business Liability Relief and Brownfields Revitalization Act. This Act contains several exemptions and defenses to CERCLA liability, which we suggest that all parties evaluate. You may obtain a copy of the law via the Internet at <http://www.epa.gov/swerosps/bf/sblbra.htm> and review EPA guidance regarding these exemptions at <http://www.epa.gov/compliance/resources/policies/cleanup>.

EPA has created a number of helpful resources for small businesses and established the National Compliance Assistance Clearinghouse as well as Compliance Assistance Centers which offer various forms of resources to small businesses. You may inquire about these resources at <http://www.epa.gov>. In addition, the EPA Small Business Ombudsman may be contacted at <http://www.epa.gov/sbo>. Finally, EPA developed a fact sheet about the Small Business Regulatory Enforcement Fairness Act (SBREFA), which is enclosed with this letter.

Please give these matters your immediate attention and consider consulting with an attorney. If you have any technical questions regarding the Portland Harbor Superfund Site, you may contact Kristine Koch, Remedial Project Manager, at (206) 553-6705. If you have legal questions about this letter, please contact Lori Houck Cora, Assistant Regional Counsel, at (206) 553-1115. Thank you for your prompt attention to this matter.

Sincerely,

Daniel D. Opalski
Director

Certified Mail Provides:

- A mailing receipt
- A unique identifier for your mailpiece
- A record of delivery kept by the Postal Service for two years

Important Reminders:

- Certified Mail may **ONLY** be combined with First-Class Mail® or Priority Mail®.
- Certified Mail is *not* available for any class of international mail.
- **NO INSURANCE COVERAGE IS PROVIDED** with Certified Mail. For valuables, please consider Insured or Registered Mail.
- For an additional fee, a *Return Receipt* may be requested to provide proof of delivery. To obtain Return Receipt service, please complete and attach a Return Receipt (PS Form 3811) to the article and add applicable postage to cover the fee. Endorse mailpiece "Return Receipt Requested". To receive a fee waiver for a duplicate return receipt, a USPS® postmark on your Certified Mail receipt is required.
- For an additional fee, delivery may be restricted to the addressee or addressee's authorized agent. Advise the clerk or mark the mailpiece with the endorsement "*Restricted Delivery*".
- If a postmark on the Certified Mail receipt is desired, please present the article at the post office for postmarking. If a postmark on the Certified Mail receipt is not needed, detach and affix label with postage and mail.

IMPORTANT: Save this receipt and present it when making an inquiry.

PS Form 3800, August 2006 (Reverse) PSN 7530-02-000-9047

SENDER: COMPLETE THIS SECTION

- Complete items 1, 2, and 3. Also complete item 4 if Restricted Delivery is desired.
- Print your name and address on the reverse so that we can return the card to you.
- Attach this card to the back of the mailpiece, or on the front if space permits.
